---

OHF Associations/Clubs hosting a tournament for Teams eligible to body check that accepts non-body checking teams, (with the exception of representative Bantam Teams from USA Hockey entering representative tournaments) must make the division of the tournament those teams are participating in non-body checking. The organizers have the option to accept or refuse a non-body checking team.

Any non-body checking Teams within the OHF shall not be allowed to participate in body checking games. If a non-body checking team does participate in a body checking game they would be subject to disciplinary action by their Member.
